SUMMARY

Result driven Senior Software Engineer with sound experience in designing, developing and managing complex development teams following agile scrum methodology, 12+ years of experience specialized in Java, Python, JavaScript and related web frameworks to build highly available, scalable and reliable distributed systems, A flexible team player, eager to learn new skills and adaptive to new work environments

SKILLS OVERVIEW

Java	Spring Boot	Hibernate	Junit	Maven	AWS
Python	Django	Celery	Jenkins	RabbitMQ	Docker
JavaScript	React JS	Ext JS	TypeScript	NodeJS	Kubernetes
REST	Microservices	RabbitMQ	Redis	Apache Kafka	Terraform

PROFESSIONAL EXPERIENCE

Senior Software Engineer

May 2019 - Present

Arm Embedded Technologies | Bangalore, India

As a Senior Software Engineer, I am responsible for design and development of [Arm's](#) next-generation Web application and automation tools for managing end-to-end Logistics for Arm's Physical IP

- Led the team to deliver important features and support with the highest quality
- Optimised 25x Product delivery workflow efficiency by leveraging private cloud infrastructure
- Regularly monitored tasks assigned to the juniors and cleared obstacles proactively
- Design and Built reliable, consistent and scalable new event driven Microservices
- Seamlessly migrated Arm's IP delivery site from on premise to AWS infrastructure
- Kept the team organised, on track, and focused on deliverables by serving as a bridge between product management, client and the development team

Technologies: Java 8, Python 3, JavaScript, Spring, Hibernate, Django, ReactJS, RabbitMQ, jQuery, HTML(5), CSS3, Nginx, Celery, GIT, Gerrit, PostgreSQL, AWS, Terraform

Software Developer II

April 2018 - May 2019

SAP ARIBA | Bangalore, India

[SAP](#) Ariba's spend management solutions and Ariba Network, you can consolidate and control all your spend, end to end, on a single, integrated platform in the cloud. Make better buying decisions with analysis and insights into company-wide spending.

As a Software developer II, I was responsible to design and develop SAP Ariba's Web application using Microservices architecture and also worked to enhance the existing system deployed in Production.

Technologies: Java, Python, JavaScript, Angular JS, Spring Boot, Maven, GitHub, Kafka, Docker, Splunk, Elastic Search, Docker, AWS

Software Engineer II

Feb 2015 - March 2018

Cisco Systems | Bengaluru, India

[Cisco](#) Evolved Programmable Networks (EPN) simplifies the management of Carrier Ethernet, Unified MPLS, converged IP-optical transport and cable access networks through integrated and automated execution of lifecycle tasks, including service design, fulfilment, assurance and analysis.

As a software developer II, I was responsible for design and development of next-gen web application from requirement assessment with teams, development, unit testing and deployment

Technologies: Java 7, JavaScript, Spring Boot, Hibernate, DOJO, jQuery, Junit, Maven, GIT, Jenkins, Conf/Yang, EPL, EVPL, L3VPN, MPLS

Senior Software Engineer

July 2011 - Feb 2015

Mindtree Ltd | Bengaluru, India

As a Senior Software Engineer, I was responsible for design and development of end-to-end [SITA's](#) Weight and Balance web app using SOA concepts and also worked on enhancement and support issues

- Led a small team to improve Application sanity and code quality by integrating Spring Junit tests and improving Code coverage and fixing Klocwork issues
- Took responsibility for Application module and managed to fix all issues and enhancement request
- Tuned Application performance by running tests using JMeter, fixing ORM and Coding issues

Technologies: Java 7, Spring, Hibernate, Web services, Junit, SQL, JIBX, Maven, SVN, WebLogic server, Oracle Service Bus, Oracle SQL Developer, Apache Tomcat, JMeter, SOAP-UI, Jenkins

EDUCATION

Visvesvaraya Technological University

AUG 2007 - June 2011

Computer Science Engineering

PERSONAL DETAILS

- DOB: 29-Sep-1989
- Nationality: Indian
- Hobbies: Listening to Music, Playing Cricket
